

Dear,

I hope this message finds you well.

I write this message to give a teaser for my motivation for the vacancy for LLM Engineer.

Reading the vacancy, there are a lot matches to highlight. Pursuing and becoming an expert in LLMs with RAGs is an exciting prospect for me, as I expected these to improve rapidly and gain even greater importance. With a broad interest and about 10 years of professional experience in IT, mainly as a System Engineer with some software development. I think I will fit well in a start up company as Donna. I am also perfectionist and advocate for robust and maintainable systems. I am also a team player and like to share and listen to others. I also have some experience in sales and value giving the customer a good sales experience.

I would love the opportunity to discuss how my background, skills, and enthusiasm can align with the needs of making Donna as good as the amazing Donna from TV series Suits!

Could we schedule a time to talk?

Kind Regards,

Gerrit Geeraerts
