SOFT SKILLS

- Curiosity
- Innovative & Creative
- Communication
- Problem solving
- Team Player
- Analytical & Strategic
- Quick Learner
- Teaching
- INTP (Logician)

Languages

- Dutch +++
- English +++
- French ++

EDUCATION

Professional Bachelor

KaHo Sint-Lieven, Ghent
2005 - 2008

Industrial Sciences

Don Bosco, Halle
1999 - 2005

PROFILE

I'm a curious and creative professional with a broad range of interests and a passion for technology. I enjoy exploring new technologies just as much as connecting with people, whether customers or colleagues, by exchanging ideas and learning together.

I naturally think outside the box and like to dig deep to understand the core of a problem. My strength lies in combining critical thinking with hands-on work, building flexible, modular solutions that can grow as needs change.

I work best in a hybrid setting: focused tasks at home, collaborative ones on-site. Above all, I'm driven by meaningful work where curiosity, creativity, research, and teamwork come together to make a real impact.

WORK EXPERIENCE

Data Engineer

Cronos (SUMSUM) & Bencode

03 - 12/2024

A full-time 9-month AI training including a 3 month Internship and different projects with companies.

Azure ETL Pandas Numpy Scikit-Learn CatBoost ML(Ops) Airflow
MLflow Terraform Selenium FastAPI Scrapy

• Developed reporting tool

Generate highly custom report with visuals about project statuses via collaborative LLM Agents

LLM (NLP) RAG AWS Python GIT Linux Bash Docker Elasticsearch
Streamlit LangChain LangGraph LangSmith

• Developed RAG Chat bot

Developed AI-powered collaboration platform solution during 3-month internship

AWS LLM (NLP) Python GIT Linux Bash Streamlit

Developer / System Engineer

VGC

2019-2023

Developed Scripts for installers, migrations, phishing mails, ...

Developed Tools for synchronizing accounts between different platforms, assigning devices, printer installer, ...

IT Infrastructure: Managing network, Firewall, Cloud migration, ...

SQL Powershell Python GIT Linux Docker Django Azure HTML
CSS Selenium Network

Developer / System Engineer

Metro Group

2014 - 2018

Developed Tools: Mailbox and Printer self service tool. Tape management tool.

Developed Scripts: Creating and managing accounts, mailboxes, servers, ...

IT Infrastructure: Managing network, Firewall, Servers, ...

Powershell SQL Network

Sales Digital World

Metro Group

2011 - 2014

Sales role focused on creating a great customer experience.

Developer / System Engineer

Universiteit Gent

2009 - 2010

Developed a workflow tool: Streamlined workflows via custom tool.

Developed new features for smart textiles website.

IT Infrastructure for textiles department I also maintained: networks, servers, ...

SQL Windows Server Network HTML CSS

Volunteered at Viso Cor Mariae

2024

I helped this school in need, Analyze there IT infrastructure, create roadmap, start on implementing and find train and startup a permanent successor.

Azure

Home lab

I have a home-lab where I actively experiment and test out technologies as it is my main hobby I spend a lot of time here.

At home all computers are Linux. The biggest part of my home projects is a lot of webscraping project and python backend projects, where some of them make it to my proxmox server where I have a VM where most of my dockers are running. Also, I have a vm on my proxmox set up with pci pass through, so I can use it as my desktop.
