Join Our Client as a Django Developer Engineer

Are you a skilled Django Developer eager to contribute to cutting-edge projects? Our client is looking for a dynamic professional to join their agile team, crafting augmented intelligence applications that drive innovation. In this role, you'll use your expertise in Python and Django to design and implement interactive tools, ensuring seamless integration with the IT infrastructure while delivering tangible value at the end of each sprint.

Key Responsibilities

As a Django Developer Engineer, you will play a pivotal role in the team's success by delivering high-quality solutions in alignment with stakeholder priorities. Working in a collaborative, scrum-oriented environment, your key tasks will include:

- Utilizing the Django templating system and integrating htmx
- Managing background job queues and connecting to various APIs
- Actively sharing knowledge and fostering a culture of continuous learning within the team

The Ideal Candidate

We're looking for a developer with a strong foundation in Django and Python, ready to tackle challenging problems in a dynamic environment. The ideal candidate brings:

- 5+ years of relevant software engineering experience with a focus on Django
- Proficiency in Git version control and a solid understanding of agile methodologies
- Familiarity with testing frameworks (e.g., Gherkin, Behave) and experience in MLOps or DevOps (preferred)
- A degree in computer science (preferred) and certifications in Python, Linux system administration, or related fields (a plus)

What Sets You Apart

To thrive in this role, you'll need excellent interpersonal and problem-solving skills, a proactive attitude, and a commitment to team success. Our client values professionals who:

- Have a results-driven mindset and exceptional analytical capabilities
- Communicate effectively with diverse stakeholders and adapt to a multicultural environment
- Strive for continuous improvement in their work and team practices

If you're passionate about creating impactful solutions and enjoy working in a collaborative, forward-thinking team, we'd love to hear from you!
